

GENERAL PACKAGING STANDARDS

Document doc-packing-policy-001

Follow clean packing practices.

ITEM INSPECTION

Inspect fragile items for surface flaws before handling.

BOX SIZING

Select a box that provides at least two inches of clearance on all sides.

CUSHIONING

Fragile ceramics require two complete layers of bubble wrap.

SEALING

Seal center flap and edges using H tape method.

LABELING

Affix fragile shipping label visibly on top flap.
